***Subject: Minor Project Refinement Request (MPRR) #8—Mendenhall Fly Yard--
Cleveland National Forest Power Line Replacement Projects (Application No.
12-10-009)***

Dear Ms. Reynolds:

On August 14, 2017, San Diego Gas & Electric (SDG&E) submitted Minor Project Refinement Request (MPRR) #8 to the California Public Utilities Commission (CPUC), to modify components of Tie Line (TL) 682 as described in the MPRR. In summary, SDG&E requested the following project refinements:

- Addition of the Mendenhall Fly Yard: The requested Mendenhall Fly Yard is located within a paved parking lot and will be accessed using a paved navigation road from State Route 76. The requested yard is located west of Lake Henshaw in northern San Diego County and is approximately 1.04 acres. Because the yard is paved, no improvements (i.e., grading/vegetation removal) will be needed. The requested yard will be used for approximately 18 months. All activities associated with the yard will be consistent with those discussed in the Final EIR/EIS for helicopter activities (i.e., take-off, landing, and refueling) and the storage and preparation of construction materials and equipment.

The CPUC voted on May 26, 2016 to approve the Cleveland National Forest Power Line Replacement Projects (Decision 16-05-038) and a Notice of Determination was submitted to the State Clearinghouse (SCH#2013091070).

The Commission decision approving the Permit to Construct (PTC) authorizes Energy Division staff to approve requests by SDG&E for minor project refinements. The decision states that minor project refinements that may be necessary due to final engineering of the project may be approved so long as such minor project refinements are located within the geographic boundary of the study area of the Environmental Impact Report/Environmental Impact Statement (EIR/EIS) and do not, without mitigation, result in a new significant impact or a substantial increase in the severity of a previously identified significant impact based on the criteria used in the EIR/EIS; conflict with any mitigation measure or applicable law or policy; or trigger an additional permit requirement.

This letter documents the CPUC's thorough evaluation of all activities covered in MPRR #8 and that the changes requested in MPRR #8 are allowed pursuant to the Commission decision issuing the PTC. In accordance with the Mitigation Monitoring, Compliance, and Reporting Program, MPRR #8 was

Ms. Kirstie Reynolds

reviewed by CPUC to confirm that no new impacts or increase in impact severity would result from the requested activities.

If you have any questions regarding this letter or need additional information, please contact me at 415.703.1966 or lisa.orsaba@cpuc.ca.gov.

Sincerely,

Lisa Orsaba
CPUC Environmental Project Manager
